What Do We Offer?

York Educational Psychology Service works in partnership with schools, settings, and other providers of education and care.

We specialise in applying psychological principles to meet the educational, developmental, social and emotional needs of all children and young people.

Service features

The Educational Psychology Service provides core Local Authority services to schools and settings using a time allocation model. Alongside this, we also offer a range of traded services and products that schools and other customers can purchase. These include:

- Training
- Supervision
- Solution-focused consultation
- Support in developing and implementing strategic models at a whole-setting level
- Individual casework.

This brochure outlines some of the training we are able to provide as a service. However, we may also be able to offer bespoke training packages designed specifically to meet your individual needs.

If you are an educational setting within the City of York Local Authority and interested in purchasing or receiving further information about traded services, please contact your allocated Educational Psychologist for further information.

Other interested parties can use the contact details at the end of this brochure.

Examples of Training We Offer

Our most popular training

The training most requested by schools and settings includes:

Attachment Based Needs and Developmental Trauma (3 hours 20 mins, £330)

This training considers how attachment difficulties begin and how they can present, how attachment difficulties affect learning, education and social development, and how staff can support children and young people with attachment difficulties.

Emotion Coaching (6 hours 30 mins, £600)

Emotion Coaching is an evidence-based, universal approach to help staff to support children and young people to self-regulate their emotions and behaviour, improving competencies to manage difficult feelings. The training will explore how Emotion Coaching can be used to create an ethos of positive learning behaviour and aid staff confidence to de-escalate situations when behaviour is challenging.

Precision Teaching (1 hour 30 mins, £150)

Precision Teaching is a method of teaching children new information in a way that is tailored specifically to their ability and knowledge base. It aims to develop fluency and accuracy and allows staff to track pupil progress in very small stages. This training provides a step-by-step guide to implementing Precision Teaching within your setting.

Social Stories Workshop (1 hour 30 mins, £150)

A collaborative workshop for up to eight staff members, to learn what Social Stories are, when to use them and how to write them to Carol Gray's format. This includes participants writing their own Social Stories.

This training is aimed at staff such as Pastoral Leaders, Inclusion Managers, SENCos and Heads of Year.

Emotional Literacy Support Assistant (ELSA) Training (6 days) Costs from April 2023 £400, £350 for York maintained schools

ELSA training is generally aimed at teaching assistants/pastoral staff and provides in-depth training on supporting the emotional wellbeing of children and young people. It takes place annually, usually in the spring term

The charge for ELSA supervision is £150 per year (six sessions), but only £120 for ELSAs employed in York maintained schools

Supporting Children and Young People with Complex Needs in a Mainstream School (3 x 3 hours)

(Please note this course is paused for 2022-2023). This training supports staff to plan individualised learning programmes, conduct assessments, promote independence, consider the importance of language for teaching and learning, and manage behaviour of children and young people with complex needs. This course should be attended by both the Teacher and the Teaching Assistant working with a child with complex needs.

Centralised training is offered subject to capacity within the Educational Psychology Service, and is advertised through [MyLO](#).
