Dear Planning Policy Team

Main Modifications Consultation

Thank you for your notification received on the 13th February 2023 in respect of the above consultation.

The Coal Authority is a non-departmental public body sponsored by the Department for Energy Security and Net Zero. As a statutory consultee, The Coal Authority has a duty to respond to planning applications and development plans in order to protect the public and the environment in mining areas.

Our records indicate that within the York City area there two recorded mine entries. These features may pose a potential risk to surface stability and public safety.

It is noted that this current consultation relates to proposed Main Modifications. I can confirm that the Planning team at the Coal Authority have no objections or comments to make on the Main Modifications proposed.

Yours faithfully

Melanie Lindsley
