Q22

Do you support or object to the proposed modification(s)?

Object

Q23

If you object, please select your reason from the list below (select all that apply):

Not positively prepared - i.e. strategy will not meet development needs

Not justified - i.e. there is no evidence to justify the modification

Not consistent with national policy - i.e. doesn't comply with the law

Q24

Please set out the reasoning behind your support or objection: Please note there is a 1000 character limit, therefore if your reason for support or objection is longer than this, please summarise the main issues raised.

The proposals to allow development on the green belt land by St Peter's School will have a severe impact on an incredibly special and valued part of York. I passionately believe that this green belt land is vitally important to preserving the special character of our beautiful city. St Peter's School appears to show no interest in the impact of the expansion plans on this quiet haven so close to the city centre and I fear that once development is allowed the unique character will be lost for ever, to the detriment of all local residents, and visitors who are charmed by the riverside area. If development is allowed here I fear there is a heightened risk of urban sprawl in this area. As this is an area which is prone to flooding I am most concerned that allowing development on this land may contribute to a future flooding risk. I don't believe this policy is consistent with green belt policy and is not justified.
