Q22
Do you support or object to the proposed modification(s)?
Object

Q23

If you object, please select your reason from the list below (select all that apply):

Not justified - i.e. there is no evidence to justify the modification

Q24

Please set out the reasoning behind your support or objection: Please note there is a 1000 character limit, therefore if your reason for support or objection is longer than this, please summarise the main issues raised.

I consider that the St Peter's playing fields should remain as part of York's green belt. My main concerns regarding the proposed St Peter's development on currently designated green belt land relate to the following areas: increased vehicular traffic, safety, noise pollution, light pollution, air pollution, increased hard surface area and loss of the peaceful character and environmental assets of the area. The overall City of York local plan is tasked with maintaining the character of York and its green corridors. The use of the all weather pitches with bright flood lights will mean that there will be longer hours of traffic and sports and spectator noise and light pollution until late at night. This light pollution is a nuisance to human neighbours, as well as being harmful to the normal diurnal patterns for wildlife such as insects (e.g. moths), bats and birds.
