**Q21**

To which evidence document does this response relate?

Respondent skipped this question

Page 20: Comment Form

**Q22**

Do you support or object to the proposed modification(s)?

Object

**Q23**

If you object, please select your reason from the list below (select all that apply):

---

Not positively prepared - i.e. strategy will not meet development needs

---

Not justified - i.e. there is no evidence to justify the modification

---

Not consistent with national policy - i.e. doesn't comply with the law

**Q24**

Please set out the reasoning behind your support or objection: Please note there is a 1000 character limit, therefore if your reason for support or objection is longer than this, please summarise the main issues raised.

---

Green belt land is a precious resource. Not only is it valued by residents and visitors alike, it is a vital area that supports biodiversity. The area is fragile and there is the risk of increased flooding as artificial surfaces do not absorb excess water. There is also a toxicity risk to the river because of runoff.
