I believe the argument to retain this land as part of the Green Belt are clearly set out in the City of York Local Plan document. The impact of the change in planning as set out by St Peter's School would fail to "preserve the setting and special character of historic towns". This area offers views of the Minster, historic City and the Bootham Conservation Area. Erecting floodlights will clearly impinge on this historic area. I do not believe that St Peter's have made a convincing argument and their plans clearly undermine the work that went into the Local Plan, as a result many thousands of local residents living in and around York would be negatively impacted.
