Q22

Do you support or object to the proposed modification(s)?

Object

Q23

If you object, please select your reason from the list below (select all that apply):

Not effective - i.e. it won't work

Q24

Please set out the reasoning behind your support or objection: Please note there is a 1000 character limit, therefore if your reason for support or objection is longer than this, please summarise the main issues raised.

It will not be possible to build the number of houses, albeit reduced in number, and to create all the necessary facilities and services that the residents will require. These facilities will not all be provided on site and will require additional public spending - school places at adjacent schools, health services at adjacent surgeries and in local hospitals. Also the capital investment on York Central is not secured and is dependent on many external variables.
